

Appendix F: Follow up SOP

The babies are to be followed up for the first 60 days of life, and the following structure should be followed.

Day	Follow up type
1	Visit
3	Visit
7	Visit
14	Phone call
28	Visit
60	Phone call

Areas of consideration:

Phone numbers provided are not always correct, please where possible try the phone number prior to the mother leaving the hospital.

Addresses are not always available, use common points of interest to help to identify where the mother and baby are located. Take photos if the same research nurse is not always doing the visits.

The following information is to be gathered at each follow up:

Baby ID	Outcome	Cause of death	Date of death	Follow up	Date of follow up	Notes
BC-B101	Alive	N/A		Day 3	12/02/2017	Baby doing well since leaving hospital
BC-B102	Deceased	Respiratory problems	09/02/2017	Day 7	12/02/2017	Baby passed away in hospital aged 4 days.
BC-B103	Alive	N/A		Day 1	12/02/2017	Baby is still being treated in hospital for clinical signs of sepsis, await blood culture results.
BC-104	Unknown	N/A	N/A	Day 3	12/02/17	Baby left hospital alive, but unable to gain contact. Will continue to try.
